

Cards of Hope Activity

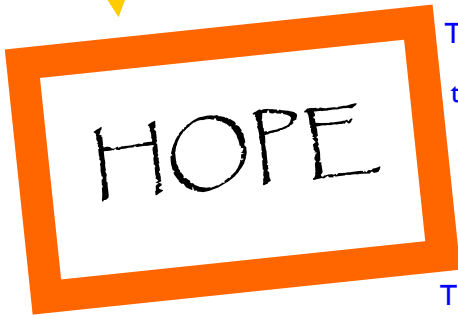

Stop. Look. Listen.

Children have a powerful message.

Powerful messages from children

Bringing hope to families in shelters

Our elementary school will be participating in a project that brings hope to women and children who find themselves in a shelter. Project Traveling Sanctuary delivers homemade pillowcases, which are accompanied with inspirational cards of hope.

The children will be asked to draw pictures and write notes about what makes them happy, so it can be delivered to a "pen pal" friend who may be sad. Construction paper, markers and glue, tools to create a Simple, Heartfelt, Powerful message.

The children's cards will be sent to Enchanted Makeovers' headquarters and attached to pillowcases homemade by others from across the United States and Canada. Shelters across North America will benefit.

Activity Sponsored by
